## **DETAILED ACTION**

1. This office action is in response to applicant's amendment filed 4/15/03, wherein claims 18-21 were amended.

### ***Drawings***

2. The proposed drawing correction and/or the proposed substitute sheets of drawings, filed on 4/15/03 have been approved. A proper drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The correction to the drawings will not be held in abeyance.

### ***Claim Rejections - 35 USC § 103***

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 1-6 and 8 are rejected under 35 U.S.C. 103(a) as being unpatentable over AAPA in view of Roberts et al., as set forth in paragraph 6 of paper number 5.

### ***Response to Arguments***

5. Applicant's arguments filed 4/15/03 have been fully considered but they are not persuasive.

Applicant contends that claims 18-21 should be rejoined because they are product-by-process claims and the examiner over looked them. Although, these claims may not have been separately addressed in the restriction requirement they are still patentably distinct from claims 1-6 and 8 for following reason.

Art Unit: 3724

The inventions of claims 1-6, 8 and claims 18-21 are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the process as claimed can be used to make other and materially different product such as non paperless battery plates.

Applicant contends that there is no teaching for combining the prior art; however, the examiner respectfully disagrees. Roberts discloses that it is old and well known in the art to apply heat when using battery paste to prevent the paste from sticking to working elements directly contacted with the paste. Therefore, Roberts is reasonably pertinent to the particular problem of sticking paste to workpiece elements for making battery plates. One of ordinary skill in the art would look to Roberts to prevent paste from sticking to the cutting elements of AAPA.

Applicant contends that claim 5 requires the addition of the index mechanism; however, it should be noted that structural elements in method claims do not necessarily serve to distinguish the prior art from the claimed invention. See section 2106 of the MPEP.

6. For the reasons above, the grounds of rejection are deemed proper.

### ***Conclusion***

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

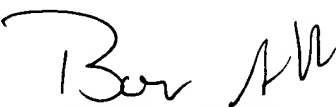

Art Unit: 3724

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Boyer Ashley whose telephone number is 703-308-1845.
